The project would just be on long page that has four sections for each person I don't know all the specifics at the moment since they could change while I am making the project but what I do know is that there will be a short paragraph explaining what I did then that would lead into me and what I'm trying to do after college then that would lead into the three others with their pictures in their section don't know where it would be I'll have to decide what looks the best when making it then after the picture I'll put who it is underneath it and then what they said during their interview and at the bottom I'll give credit to the person who gave the pictures. At the moment I don't have everything for what the page will look like since I do work on that when I'm doing the actual website it may take longer but it helps me see what looks best with everything around.
